Program Description

Join us to watch video highlights from the 2014 CCS Atrial Fibrillation (AF) Guidelines recorded at the Canadian Cardiovascular Congress in Vancouver, BC. Through a series of case studies, the expert panel discusses the new recommendations and how they will impact the management of your AF patients at risk for stroke.

Learning Objectives

This program will allow participants to:

- Case 1:** Explore new ways to apply stroke and bleeding risk schemes
- Case 2:** Develop strategies to maintain oral anticoagulant therapy for patients notwithstanding bleeding or coronary artery disease
- Case 3:** Determine the most appropriate choice of oral anticoagulant based on the clinical situation
- Case 4:** Examine the prevalence and importance of subclinical AF

Agenda

- Arrivals and Meal
- Viewing of Program
- Q&A
- Program End

You will be viewing two of the following cases:

Case 1 Presenter
L. Brent Mitchell, MD
University of Calgary
Libin Cardiovascular Institute of
Alberta
Calgary, AB
